

**Branded Pineapple.**

Branded pineapple does not require to be cooked and is exceedingly nice to serve with ice creams, custards or corn-starch puddings. After peeling the pines and removing the eyes begin at the stem end, and with a silver fork pick the fruit from the core. Take self sealing jars and pack them with the picked pineapple and granulated sugar, allowing as much sugar as you have fruit. Pour very slowly over them white brandy until the jars are filled. Screw the covers down tight and keep the jars in a dark place. If one does not wish to use so much brandy, the fruit can be prepared thus: After picking the pineapples into pieces, for every pound of fruit take a pound of granulated sugar. Put them in alternate layers in an open mouth stone jar or porcelain kettle. Cover and stand in a cool place over night. In the morning put the fruit in jars and fill with the sirup, letting the jars overflow to remove all the air. Add a tablespoonful of sherry to every quart jar. Before filling the jars stand them with the tops down in hot water; keep the lids and rubbers also in water. Keep the filled jars in a dark, cool place.

There seems to be some blight affecting the bloom of the beautiful Punciana Regia this season, for of all the trees in the city but few have blossoms enough to attract attention. The one on Hotel street next to the Arlington is a notable exception, and in consequence is a source of wonder and delight to visitors who have never before seen this tree in bloom. King Bros. have made several excellent sketches in oil and water colors of this subject, which are meeting with ready sale.
